## THE MAIN LIBRARY OF THE COLLEGE OF AGRICULTURE, KRAKOW\*

BY

MARIA WÓJCIK (*Kraków*)

The College of Agriculture in Kraków has celebrated its 70th Anniversary this year.

The Department of Agriculture in the Faculty of Philosophy at the Jagellon University was created in the year 1890. This Department of Agriculture was the origin of the later Faculty of Agriculture which was set up in 1923 and was separated from the University in 1953/54 to form an independent College of Agriculture.

By reason of its origin and of many years collaboration within the Jagellon University, the College of Agriculture will take part in the celebrations for the 600th anniversary of the foundation of the Jagellon University. A new large and modern building of the College of Agriculture has been inaugurated, in which the Main Library will also be situated. It will be ready in 1963.

The Main Library began its activity in May 1954, and is temporarily located in the building of Collegium Chemicum of the Jagellon University.

The Main Library has collected during the seven years of its activity about 25,000 volumes, and contains mostly new publications, issued after the second World War. The departmental libraries, however, contain also older ones - dating for instance from the 19th century and often of historical value. The collection of the whole library system amounts to over 80,000 volumes and the special collections to about 2,000 items. In collecting literature on agriculture the Main Library takes into consideration the needs of the three Faculties of the College: those of Agriculture, Zootechnics and Melioration; also many publications on auxiliary sciences are kept, e.g. on mathematics, physics, chemistry, biology, medicine and so on.

For some years the Library has had exchange arrangements with many scientific centres and libraries of Colleges of Agriculture throughout the world, offering in exchange the Scientific Bulletins of the College of Agriculture in Kraków. These appear in several series: Agriculture, Zootechnics, Economics. Similar publications are issued by other Polish Colleges of Agriculture, and are well known in the

\* formerly the Faculty of Agriculture, Jagellon University.

more important scientific centres abroad. At presently a 'Bibliography of the Contents of Scientific Bulletins of Colleges of Agriculture in Poland for the years 1955-1960' is being prepared in our Library in Kraków and will be published in 1962. It covers the articles of 6 Colleges of Agriculture in Poland, those at Kraków, Olsztyn, Poznań, Warszawa, Wrocław and Szczecin.<sup>1</sup>

To make bibliographical information more readily available a Union Catalogue of Foreign Journals in the whole College collection was compiled in our Library, comprising about 1,000 titles from 40 Departments. It was prepared as a file catalogue, but publication is being considered on account of its usefulness not only to ourselves but to other libraries in Poland.

In spite of difficulties in the organization period, undergraduate students and some graduates have been systematically instructed in the use of the library. The aim of such library instruction is to make students acquainted with files and catalogues, of their arrangement and how to use them. Graduate students have been instructed about special agricultural and other bibliographies and reference works and how to collect data for their diplomas. Last year a questionnaire on this subject was prepared in our Library and then sent to every university and college library in Poland. Much interesting information was gathered in this way concerning library instruction of undergraduate and graduate students. Some libraries of Colleges of Agriculture have good results; in general, agricultural libraries have, in this regard, better results than the technical ones.

As a special scientific library, we collect home and to some extent foreign documentation cards in UDC 63 and some related classes. The arrangement of these cards is at present rather poor because of scarcity of space; but in the new building there will be a separate room for documentation.

<sup>1</sup> This work records about 900 papers, giving each title in Polish and a foreign language, mostly English, and contains author and subject indexes. The price will be about 30-40 zł. [about 15 shillings]. Orders should be sent to: Maria Wójcik, Main Library, College of Agriculture, Kraków, ul. Krupnicza 41, Poland.

## COMMUNICATIONS TO MEMBERS

### BERICHT ÜBER DIE ARBEITSTAGUNG DER GESELLSCHAFT FÜR BIBLIOTHEKSWESEN UND DOKUMENTATION DES LANDBAUES (IM DEUTSCHSPRACHIGEN GEBIET) VOM 13.-16. JUNI 1961 IN BRAUNSCHWEIG

Die Arbeitstagung vereinigte rd. 50 deutsche und schweizerische Mitarbeiter von Forschungsanstalten, Bibliotheken, Institutionen und Industriebetrieben, welche auf dem Gebiet des Landbaues und seiner Nachbardsdisziplinen bibliothekarisch oder dokumentarisch tätig oder interessiert sind.

Der Bibliotheksausschuss tagte am ersten Tag unter Vorsitz von Bibliotheksrat *Dr. W. Göcke* (Bonn) in der Forschungsanstalt für Landwirtschaft. G. berichtete über den Plan der Deutschen Forschungsgemeinschaft zur Errichtung einer bibliothekarischen Dokumentation in den Sondersammelgebiets-Bibliotheken. Danach ist an die Auswertung der Fachzeitschriften-Literatur auf den Sondersammelgebieten gedacht. In der Abteilung Landwirtschaft der Universitätsbibliothek Bonn, die das Sondersammelgebiet Landwirtschaft betreut, ist geplant, pro Jahr 18 000 Titel von Zeitschriftenaufsätzen mit Schlagwörtern zu erfassen.

*Hansen* (Bonn) berichtete über die auf Seiten der Bibliotheken zu erwartende Mehrarbeit im Zusammenhang mit der Errichtung einer umfassenden Dokumentation der Landbauwissenschaften. - U.a. wurde festgestellt, daß in den von H. befragten Bibliotheken seit 1928 die Zahl der Monographien um 300%, die Zahl der Mitarbeiter aber um nur 30% anstieg. Die offenen Stellen sind z.T. nicht zu besetzen, ein Ausweg wird in der Ausbildung sog. Bibliothekshelfer gesehen.

*Brodjanac* (Geisenheim) referierte über den Dublettenaustausch innerhalb des Mitgliederkreises der Gesellschaft, wobei die juristischen und fiskalischen Regelungen einerseits und die praktische Handhabung andererseits gegenübergestellt wurden.

Die Tagung des Dokumentationsausschusses fand am zweiten Tag in der Biologischen Bundesanstalt unter Vorsitz von *Dr. W. Weinert* (Kiel) statt.

*Scherrer* (Zürich) hielt einen grundlegenden Vortrag über Dokumentation und Literaturauswahl.

Einleitend wurde festgestellt, daß Bibliothekare und Dokumentare gute Nachbarn sein müßten und man sich vor Überspitzungen in der Bewertung des einen oder anderen Partners hüten müsse.

Die Dokumentation sei den Forschungsmethoden verwandt, die

Bibliothek sei dagegen an Stoff und Masse gebunden, es bestünden wechselseitige Beziehungen. Betrachtungen über den Begriff Dokumentation schlossen sich an. Der Umfang der Dokumentation ist von verschiedenen Faktoren abhängig: *a*) der Dokumentationshöhe oder -tiefe; *b*) der Dokumentationsfläche (d.i. das Gebiet, welches umschrieben wird), daraus folgt als allgemeiner Grundsatz: Dokumentationshöhe x Dokumentationsfläche = Dokumentationsvolumen.

Die allgemeine Dokumentation hat eine geringe Höhe, aber große Fläche; eine spezielle Dokumentation - eines bergenzten Fachgebietes - hat eine kleine Fläche, aber eine große Höhe bzw. Tiefe.

Hinsichtlich der Dokumentationsarten wurden unterschieden eine primäre (= produktive = aus den Quellen schöpfende) und eine sekundäre (= rezeptive = bei mittelbarer Materialbeschaffung z.B. in Form von Referaten oder Kartendiensten). Nach den grundlegenden Betrachtungen leitete ein Bericht über die Dokumentation an der Bibliothek der Eidgenössischen Technischen Hochschule in Zürich zur Praxis über. Er wurde dort, was eine Frage des Bedürfnisses war, begonnen mit der Elektrotechnik. Heute bestehen Kartendienste für Elektrotechnik (2100 Karten/Jahr), Stahl- und Brückenbau (360/Jahr), Textilwesen (2000-3000/Jahr) und Atomfragen (2000/Jahr). Bei den Kartendiensten handelt es sich um eine Auswahl aus einer wesentlich größeren Zahl von erfaßten Publikationen.

Insgesamt werden 300 000 Einzelkarten/Jahr an die verschiedensten Interessenten abgegeben und 3500-4000 Auskünfte/Jahr erteilt. Ordnungsprinzip ist im wesentlichen die Dezimalklassifikation.

Schrader (Reinbek) berichtete über Probleme der Dokumentation in der Forst- und Holzwirtschaft und die historische Entwicklung auf dem Gebiete forstlicher Bibliographien. In der Bundesforschungsanstalt für Forst- und Holzwirtschaft werden jährlich ca. 500 Zeitschriften und Serien ausgewertet. 1957 wurden 7300 Titel, 1960 ca. 10,000 Titel erfaßt, davon 60% nicht-deutsche. Der Anteil an russischen und osteuropäischen Titeln liegt bei 20%. Die Charakterisierung des Inhalts der Arbeiten erfolgt für die Forstwirtschaft mit dem Oxford-System. Da es für die Holzwirtschaft keine verbindliche Einteilung gibt, wird hier ein eigenes System verwendet. Sowohl in der Forst- als auch in der Holzwirtschaft wird zusätzlich mit Schlagwörtern gearbeitet.

Jährlich wird eine Bibliographie mit 6000 Titeln in 4 Heften herausgegeben, ebenso ein Schrifttumskartendienst. Die verwendete Steilkartei erweist sich z.T. als nicht mehr ausreichend für Recherchen, nach neuen Wegen wird gesucht.

Griesau (Bad Godesberg) berichtete über die Fortschritte auf dem Wege zur Schaffung einer zentralen Dokumentationsorganisation des Forschungsrates für Ernährung, Landwirtschaft und Forsten, die sich seit der Weihenstephaner Tagung der Gesellschaft ergeben haben.

Er besteht begründete Hoffnung, daß eine aus dem Bundeshaushalt finanzierte Zentrale dieser Dokumentationsorganisation im Rahmen des Forschungsrates in Bad Godesberg Anfang 1962 mit der Arbeit beginnen kann. Die Zentrale soll die Arbeit der einzelnen Schwerpunktstellen für einzelne Fachgebiete koordinieren, z.T. sind diese Schwerpunkte an Bundesanstalten usw. schon vorhanden, z.T. sollen sie - von den Ländern finanziert - an Universitäten oder Hochschulen noch gegründet werden. Eindeutig wurde in der Diskussion festgestellt, daß die zu schaffende Dokumentationsorganisation für das Gebiet Ernährung, Landwirtschaft und Forsten Dokumentation für den Wissenschaftler und nicht für die landwirtschaftliche Praxis treiben soll. Die neue Organisation soll einen Karteikartendienst herausbringen, der möglichst schnell die Originalliteratur erschließen soll. Vorerst soll nur die deutsche Literatur ausgewertet werden, was im Kreise der Gesellschaft als ungünstig angesehen wird. Es wäre darauf hinzuwirken, daß nach der ersten Anlaufzeit unbedingt in- und ausländische Literatur erfaßt und ausgewertet wird.

Außerdem wurde über das in Entwicklung befindliche Institut für Dokumentationswesen - getragen von der Max-Planck-Gesellschaft - berichtet. Dieses Institut soll nicht selbst dokumentieren, sondern Dokumentationsmethoden entwickeln und Grundlagenforschung treiben, die Dokumentationsarbeit in der Bundesrepublik analysieren und Koordinierungsvorschläge machen sowie beratend wirken.

Am dritten Tag fand die Jahresversammlung - wiederum in der Forschungsanstalt für Landwirtschaft - unter Vorsitz von Wiss. Oberrat R. Wiehr (Kiel) statt.

Prof. Dr. W. Flaig (Völkenrode) begrüßte im Namen des Präsidenten der Forschungsanstalt für Landwirtschaft die Anwesenden. Zuerst berichtete Wiehr über die Tagung der Gesellschaft in Weihenstephan, Kurzberichte der Obleute der Ausschüsse schlossen sich an. Flaig und Ruhemann (Völkenrode) referierten über die Dokumentation am Institut für Biochemie des Bodens der FAL und demonstrierten die Kartei. Bis 1948 zurückgehend wurde - im wesentlichen auf der Grundlage der in 'Soils and Fertilizer' erschienenen Referate - seit Anfang des Jahres 1960 eine Kartei mit z.Z. rd. 38 000 Karten angelegt. Die Referate werden auf Schlitzlochkarten aufgeklebt und nach der Dezimalklassifikation verlocht. Die Abstellung erfolgt getrennt nach großen Sachgruppen um die Suchzeiten bei der Karteibefragung abzukürzen. Ohne Referateabonnementskosten betragen die für die Kartei aufgewandten Kosten rd. 4.000,- DM.

Meyer-Uhlenried (Brüssel) gab dann einen Überblick über Forschungsergebnisse für die internationale Koordinierung rationeller Dokumentationsmethoden, dargestellt am Beispiel eines EURATOM-Forschungsauftrages aus dem Gebiet der Landbauwissenschaft.

Die CETIS-Forschungsgruppe der EURATOM soll automatische

Dokumentationsmethoden entwickeln für alle Arbeitsgänge, die methodisch zusammengefaßt werden können in: Sammeln - Ordnen - Auswerten - Speichern - Wiederzurverfügungstellen. Die Fragenkomplexe Synonyme und Homonyme, automatische Übersetzung, Kunstsprachen, Formularentwürfe wurden beleuchtet. Die Methoden für mittlere Dokumentationsstellen, wo sich eine automatische Dokumentation noch nicht lohnt, wurden diskutiert unter besonderer Berücksichtigung der sich bei Einsatz eines Flexowriters ergebenden Arbeitsabläufe und Arbeitserleichterungen.

Der bisherige Sekretär der Gesellschaft, Diplom-Landwirt *K. Hansen* (Bonn) welcher aus beruflichen Gründen zurücktrat, erstattete den Geschäftsbericht; die Mitgliederzahl der im Jahre 1958 gegründeten Gesellschaft beträgt z.Z. 104. Vorläufiger Nachfolger als Sekretär der Gesellschaft wurde Bibliotheksrat *Dr. W. Göcke* (Bonn).

Die Sitzung des Ausschusses für Technik in Bibliothek und Dokumentation wurde geleitet von Diplom-Forstwirt *K. Ch. Graf Rothkirch* (Bonn). Graf R. berichtete über Planung und Organisation einer mittleren Dokumentationsstelle. Den Prinzipien der statischen Ordnung (= systematische Ordnung, z.B. Dezimalklassifikation) wurde die dynamische Ordnung (mit automatischen Methoden, Randloch- und Sichtlochkarten) gegenübergestellt, die die Möglichkeit der mehrdimensionalen Befragung bietet. Es wurde die Organisation des genauen Arbeitsablaufes bei der Auswertung beschrieben. Der Weg führt von der Publikation über das Tonbandgerät, die Schreibmaschine zur anschließenden Einarbeitung in Steil-, Kerb- und Sichtlochkarteien. Die dabei verwendeten Vordrucke wurden demonstriert. Außerdem wurde die Verwendung des Flexowriters und die Arbeit an einem multilateralen Simultanlexikon für die EURATOM in den Sprachen Englisch, Französisch, Deutsch, Italienisch, Holländisch - auf Kerblockkarten - besprochen.

*K. Conze* (Bonn) berichtete über den Tonbandeinsatz als arbeitssparendes Hilfsmittel in der Dokumentation und die damit verbundenen Organisationsfragen. Demonstrationen und Kurzreferate der Firmen EKAHA, Friden, IBM und Minnesota Mining Co gaben einen Überblick über einzelne Arbeitsmethoden in Dokumentation und Vervielfältigungstechnik.

Die Teilnehmer hatten außerdem die Möglichkeit, die Bibliotheken der gastgebenden Institutionen kennenzulernen. *Dr. habil J. Krause* führte durch die von ihm geleitete Bibliothek der Biologischen Bundesanstalt, *Prof. Dr. R. Lauche* durch die Zentralbücherei der Forschungsanstalt für Landwirtschaft. Da an den Veranstaltungen ein kleiner, noch überschaubarer Personenkreis teilnahm, war diese Zusammenkunft eine wirkliche Arbeitstagung, die auch Gelegenheit zu persönlichem Gedankenaustausch am Rande der Tagung und während eines Begrüßungsabends gab.

Dr. Wolfgang Bartels, *Leverkussen*.

## LIST OF PUBLISHED CATALOGUES OF SERIALS IN AGRICULTURE

In connection with the *World List of Current Agricultural Serials* which is being prepared by IAALD, a 'Draft list of published catalogues of serials in agriculture' appeared in the April 1961 issue of this Bulletin (pp. 100-105), and members were asked to send corrections and additions to the Editor.

The following revised list has been prepared on the basis of material received in response to this request.

### EUROPE

#### Austria

##### *Agricultural*

Vienna. Hochschule für Bodenkultur. Gesamtverzeichnis der laufend bezogenen Zeitschriften. 1955. - also Suppl. 1, 1955.

#### Belgium

##### *Agricultural*

Bartier, J. Répertoire des périodiques agricoles existant dans les principales bibliothèques spécialisées de Belgique. 1955.

Ghent. State Agricultural Univ. Library. Catalogue of periodicals. 1949.

##### *Scientific & General*

Hove, J. van. Répertoire des périodiques paraissant en Belgique. 1951 + supplements.

#### Czechoslovakia

Prague. Central Agricultural Library. List of foreign periodicals. 1959.

#### Denmark

##### *Agricultural*

List of periodicals in dairy science. Copenhagen, 1959. (Nord. Jordbruksforskning 41, 129-146).

#### Finland

##### *Scientific & General*

Suomen kirjallisuuspalvelun seura. List of Finnish technical periodicals. By Elin Törnudd, 1957.

##### *Scientific & General*

Pretoria. C.S.I.R. Library & Information Division. List of current periodicals received. 1953.

Handlist of South African periodicals current in December 1951. Cape Town, South African Public Library, 1951.

#### ASIA

#### China

##### *Agricultural*

U.S. Dept of Agriculture Library. Communist Chinese periodicals in the agricultural sciences. Washington, D.C., 1960. (Library list no. 70).

##### *Scientific & General*

Washington, D.C. Library of Congress. Chinese scientific and technical serial publications in the collections. 1955.

#### Indo-Pacific Area

##### *Scientific & General*

NIFOR guide to Indian periodicals 1955-1956. Poona, [?1956].  
Indo-Pacific Fisheries Council (FAO). List of scientific and other periodicals published in the Indo-Pacific area. 2 ed. Bangkok, 1953.

UNESCO. Scientific and technical journals of East and South East Asia. 1953.

List of learned Indonesian periodicals. *In*: Council for Sciences of Indonesia bulletin 3 (1961).

#### Israel

##### *Scientific & General*

List of newspapers & periodicals appearing in Israel. Government Press Office, 1957.

## Japan

### *Scientific & General*

Japanese journals in science and technology: an annotated checklist. By G. S. Bonn. New York Public Library, 1960.

Directory of Japanese learned periodicals. Tokyo Library Bureau, 1957.

List of Japanese learned periodicals from advanced institutions. Den Haag, 1952.

Periodica medica et biologica japonica. Tokyo, Bunsei Shoin. Tuttle & Co. Japanese current periodicals. Tokyo.

List of scientific periodicals published in Japan. Tokyo, 1953 [etc.].

## OCEANIA

### Australia

#### *General & Scientific*

Union catalogue of the scientific and technical periodicals in the libraries of Australia. 2 ed. Melbourne, 1951.

### New Zealand

#### *Scientific & General*

New Zealand General Assembly Library. Copyright periodicals currently received. 1960.

UNESCO. Dept of Natural Sciences. List of New Zealand scientific periodicals. 195-.

# BIBLIOGRAPHICAL NEWS

## New Agricultural Bibliographies

compiled by

*Agricultural University Library, Wageningen*

With assistance from Mrs. Elisabeth Burch, U.S. Dept. of Agriculture Library, and other members of I.A.A.L.D. (Supplementing the 'Internationales Handbuch der Bibliographien des Landbaues', by Dr. Rudolf Lauche).

### Series 12

#### Social Sciences

Martindale, D. The nature and types of sociological theory. London, 1961. 14 and 573 p. refs. to each. chapter. 30

301.17/.18(73)

Reisman, L. Class in American society. London, 1960. 11 and 435 p. tabs. refs. p. 405-429.

301.18(5-012)

308(5-012)

Social structure in Southeast Asia. Ed. by G. P. Murdock. Chicago etc. 1960. 9 and 182 p. illus. tabs. graphs. maps, refs. p. 165-174. Viking Fund publ. in Anthropology, nr. 29.

325.1(569.4) 301(569.4)

301.08:325

Weinberg, A. A. Migration and belonging. A study of mental health and personal adjustment in Israël. The Hague, 1961. 22 and 402 p. tabs. refs. p. 273-280. Studies in social life, nr. 5.

332.6 338.984.4:330.14

330.14 338.984.4:332.6

Lundström, H. O. Capital movements and economic integration. A study of the rôle of international longterm capital movements in international economic integration with particular reference to Europe. Leyden, 1961. 231 p. refs. p. 227-231. European aspects. A collection of studies relating to European integration. Series B: economics, nr. 4.

333(4) 347.2(4)

63:388(4)

Pikalo, A. Land- und Forstwirtschaftliches Grundstücks-verkehrs-

und Erbrecht im westlichen Europa. Eine rechtsvergleichende Darstellung. Berlin, 1961. 36 and 588 p. tabs. refs. in foot notes.

333.013.6(43) 631.1(43)  
711.3(43)

Röhm, H. Agrarplanung als Grundlage der Flurbereinigung und anderer landwirtschaftlicher Strukturverbesserungen in städtisch-industriellen Ballungsräumen. Der Stuttgarter Raum als Beispiel. Stuttgart, 1960. 208 p. illus. tabs. graphs. maps, refs. p. 174-178. Schriftenreihe Flurber., Heft 28.

338(438)  
711.2(438)

Wróbel, A. Wojewodztwo Warszawskie. Stadium Ekonomicznej Struktury Regionalnej. The Warsaw Voivodship; a study of regional economic structure, Warszawa, 1960. 140 p. illus. maps, refs. p. 123-127. Prace Geograficzne, nr. 24.

338.984.4

Benham, F. Economic aid to underdeveloped countries. London, etc., 1961. 121 p. refs. in foot notes.

338.984.4(4)  
337(4)

Streeten, P. Economic integration. Aspects and problems. Leyden, 1961. 150 p. graphs. refs. in foot notes. European aspects. A collection of studies relating to European integration. Series B: economics, nr. 5.

351.778.2(100)  
339.6:63(100)

Vondeling, A. De anti-honger actie en de voedsel- en landbouworganisatie der Verenigde Naties. (The anti hunger campaign and the F.A.O.) Groningen, 1961. 26 p. 59 refs. Speech Groningen.

38:63

Dominic, B. A. Research in retail merchandising of farm products. Appraisal of methods and annotated bibliography. Washington: U.S.D. A. 1960. 46 p. 1 tab. 229 refs. Mark. res. rep. nr. 416.

### Chemistry

543.3

Rainwater, F. H. and L. L. Thatcher. Methods for collection and analysis of water samples. Washington, 1960. 10 and 301 p. illus. tabs. refs. to each chapter.

547.96:541.6

San-Ichiro Mizushima and Takehiko Shimanouchi. Possible polypeptide configurations of proteins from the viewpoint of internal rotation potential. Advances in Enzymology 23 (1961) p. 1-27 illus. tabs. graphs. 66 refs.

547.96:577.1      547.963.3  
577.1:547.96      576.34

Protein biosynthesis. A symposium hold at Wassenaar. 29 August-2 September, 1960 under the auspices of UNESCO and the Council for International Organizations of Medical Sciences. Ed. by R. J. C. Harris. London and New York, 1961. 12 and 409 p. illus. tabs. graphs. refs. to each treatise.

#### Geology

551.24(438)

551.3(438)

Starkel, L. Rozwoj Rzeźby Karpat Fliszowych Holocen. The development of the Flysch Carpathians Relief during the Holocene. Warszawa. 1960. illus. tabs. graphs. maps annex, refs. p. 191-198. Prace Geograficzne, nr. 22.

551.24(438)

551.3(438)

Balinska-Wuttke, K. Geomorfologia Obszaru Miedzy Skierniewicami A Rawa Mazowiecka. Géomorphologie de la région entre Skierniewice et Rawa Mazowiecka (Pologne centrale). Warszawa, 1960. 112 p. illus. maps annex, refs. p. 88-93. Prace Geograficzne, nr. 23.

551.48(438)

Gieysztor, I. Studia Hydrologiczne Nad Potokami Tatrzanskimi. Etude hydrologique des torrents des Tatras. Précipitations et écoulements sur le terrain des bassins des torrents la Bialka et le Koscieliski. Warszawa, 1961. 80 p. illus. tabs. maps annex, refs. p. 67-70. Prace Geograficzne, nr. 26.

551.58(4)

551.58(261)

Tables of temperature, relative humidity and precipitation for the world. Part III. Europe and the Atlantic Ocean North of 35° N. London, 1960. 10 and 159 p. tabs. 1 map, 206 refs.

#### Paleontology

56(43)

Aletsee, L. Zur geschichte der Moore und Wälder des Nördlicher Holsteins. Nova acta Leopoldina, Abhandlungen der Deutschen Akademie der Naturforscher Leopoldina. Band 21 (1959) 139. p. 1-50. 55 refs.

56.07:581:571

571:56.07

Steckhan, H. Pollenanalytisch-vegetations-geschichtliche Untersuchungen zur frühen Siedlungsgeschichte im Vogelsberg, Knüll und Solling. Flora oder allgemeine Botanische Zeitung 150 (1961) 4

(April) p. 514-552. tabs. graphs. maps, refs. p. 549-552. G. summ.

### Biological Sciences. Heridity. (Genetics)

575

Classic papers in genetics. Ed. by J. A. Peters. 3rd pr. Englewood Cliffs, 1961. 6 and 282 p. illus. tabs. graphs. refs. in foot notes and to each chapter.

575.41.7

576.12

577.4

Harper, L. L. a.o. The evolution and ecology of closely related species living in the same area. *Evolution* 15 (1961) 2 (June) p. 209-227. refs. p. 224-227.

### Cytology

576.31

581.817:576.31

Whaley, W. G. a.o. Die Ultrastruktur der meristematischen Zelle. *Amer. J. Bot* 47 (1960) (June) p. 401-49. illus. 169 refs.

## PROFESSIONAL LITERATURE

The attention of members is drawn to a series which is being issued steadily by the Hungarian National Agricultural Library and Centre for Documentation, Attila utca 53, Budapest I. It is concerned with problems which are closely relevant to the work of many agricultural librarians and documentalists throughout the world. The papers are produced in the Hungarian language, but some of them have English summaries, and now two of them have been issued in full in an English text. No. 1, by E. Pataky, was summarised in English by the author for this *Bulletin*, 4 (1959) pp. 81-85. The series as it stands at present is listed below.

*Proceedings of the Hungarian Agricultural Library and Documentation Centre:*

1 (1958). Pataky, E. Theoretical problems of agricultural documentation. [Also in English].

2 (1959). Gallai, E. Special library in the service of agriculture. [Also in English].

3 (1960). Dinnyés, J. Acquisition problems of agricultural special libraries, *with*

Páter, E. Agricultural research institution libraries. [With English summary].

4 (in the press). Fabinyi, R. The effectiveness of documentation in agriculture (as exemplified in plant-protection). [With English summary].

## GENERAL AND PERSONAL INFORMATION

### EXCHANGE: OFFERS & REQUESTS

The Director, Centre for Agricultural Publications and Documentation, 1A, General Foulkesweg, Wageningen, offers in exchange copies of the following bibliographical lists recently compiled:

<i>Title</i>	<i>UDC</i>	<i>number of references</i>
Agricultural workers (Dutch publications)	323.333	11
Agricultural credit in the Netherlands (suppl. list)	332.71(492)	27
Re-allocation in the Netherlands	333.013.6(492)	140
Vertical integration, contract farming	338	76
Production planning (Dutch publications)	338	20
Dairying in the Netherlands (suppl. list)	338.5:637.1(492)	20
Some Dutch publications about F.A.O.	341.16:63	75
Agricultural aspects of Euromarkt 77-80	38(4):63	78
Disturbing the biological balance in nature by agricultural measures (Dutch publications)	57	18
Diseases of hoof and foot	619:636.1/3	100
Artesian wells	626/627	15
Agriculture in Portugal	63(469)	28
Agriculture in the province of Utrecht (Netherlands)	63(492.83)	110
Shopwork on the farm	631.004	5
Mixed farming (Dutch publications)	631.116:3	14
Hill farm mechanisation (mostly German)	631.3(23)	25
Subsoil fertilizing	631.344	13
Deep plowing	631.512	8
Influence of breeding better crops on pro- ductivity (Dutch publications)	631.521	14
Good seed (Dutch publications)	631.531.1	14
Tree nursery	631.537	11
Drainage in agriculture and horticulture	631.62:626.062	32
Minor elements	631.811.9	200
Air pollution	632.19	35
Biological control	632.96	5
Mechanical and rheological properties of grain	633.1:58	8
Depth of sowing grain, peas and beans	633.1:631.5	10
		277

Wheat in Euromarket	633.1(4)	40
Germination of maize pollen	633.15:58	5
Factors influencing the magnesium content of grass	633.2:58	30
Mechanisation of spring cultivation on sugar beet	633.63:631.3	20
Overwintering sugarbeet for seed	633.63:631.53	17
Mint farming	633.822	12
Non-governmental publications on horti- culture in the Netherlands (Dutch publications)	634.1/.8+635	130
Economic aspects of fruit growing in Western Europe	634.1/.8:338(4)	90
Apricots	634.21	6
Ponies	636.16	35
Injury to the bovine udder	636.2:591.469	7
Coloration of egg yolk	636.5.984	25
Fungi and bacteria in animal feeding stuffs	636.985	10
Vitamins, hormones, antibiotics, minerals, stimulants, etc. in animal feeding stuffs	636.085.1	31
Zero grazing	636.2.084.21	32
Fattening calves	636.2.084.52	12
Paper and plastic milk bottles	637.136	23
Filled milk (Dutch literature mostly)	637.18	30
Vegetable dehydration	664.84.047	4
Town and country planning in England	711(42)	18
Town and country planning (The Nether- lands)	711(492)	90

## INSTITUTIONS & INDIVIDUALS

### *Israel*

The Agricultural Research Station of the Israel Ministry of Agriculture (at Beit Dagan and Rehovot) and the Faculty of Agriculture of the Hebrew University of Jerusalem (at Rehovot) have merged into one institution, to be known as 'The National and University Institute of Agriculture'. All correspondence to the Library should be addressed thus: National and University Institute of Agriculture, Library, POB 12, Rehovot, Israel.

### Canada

The Forest Biology Division of the Canada Department of Agriculture was transferred in October 1960 to the new Department of Forestry and has been re-named the Forest Entomology and Pathology Branch, Canada Department of Forestry, Motor Building, 238 Sparks Street, Ottawa.

### U.S.A.

The name of the Society of American Bacteriologists has been changed to 'American Society for Microbiology' (19875 Mack Avenue, Detroit 36, Mich.).

### FORTHCOMING CONGRESSES

- Agricultural Meteorology.* 4th Conference on Agricultural Meteorology with the American Society of Agronomy. St. Louis, Mo., 27-28 November 1961. (Mr. K. C. Spengler, Executive Secretary, American Meteorological Society, 45. Beacon Street, Boston 8, Massachusetts).
- Crop Protection.* 14th International Symposium on Crop Protection. Ghent, Belgium, 2 May 1962. (Prof. Ing. J. van den Brande, Institut Agronomique de l'Etat, Coupure gauche 233, Ghent).
- Horticulture.* 16th International Horticultural Congress, Brussels, 31 August to 8 September 1962. (General Secretariat, 233. Coupure links, Ghent, Belgium).
- Microbiology.* International Congress of Microbiology. Montreal, 19-25 August 1962. (Dr. N. E. Gibbons, Secretary-General, c/o Division of Applied Biology, National Research Council, Sussex Drive, Ottawa 2, Ontario, Canada).
- Ornithology.* 13th International Ornithological Congress. Ithaca, New York, 17-21 June 1962. (Prof. Ch. G. Sibley, Cornell University, Fernow Hall, Ithaca, N.Y.).
- Poultry.* 12th World's Poultry Congress. Sydney, 13-18 August 1962. (Mr. W. D. Hardy, Secretary-General, XIIth World's Poultry Congress, Commonwealth of Australia, Department of Primary Industry, Canberra, A.C.T.).
- Radioisotopes.* Use of radioisotopes in animal biology and the medical sciences. Mexico City, 21 November to 1 December 1961. (International Atomic Energy Agency, 11. Kaerntnerring, Vienna 1).
- Soils.* International Soil Conference (in three parts). Massey Agricultural College, Palmerstone North, New Zealand. Part I:

3-12 November 1962 (Tour), Part II: 13-21 November 1962 (Meeting), Part III: 22-30 November 1962 (Tour). (Dr. R. B. Miller, Deputy Secretary, International Soil Conference New Zealand 1962, Soil Bureau, P.O. Box 8001, Wellington, N.Z.).

#### MISCELLANEA

*Scientific and technical publications* of the world will be the subject of a study to be conducted by the Science and Technology Division of the Library of Congress through support from the National Science Foundation. The study has two objectives: a compilation of a bibliography of sources on scientific and technical serials and, based on a study of these sources, a count of the current serial titles of the world by country and by subject. The bibliography and the census will serve the purpose of bringing under bibliographical control a body of literature essential to librarians in planning acquisitional and informational services.

At the present time, the *World List of Scientific Periodicals*, published in 1952, is the basis for estimates of the number of scientific serials currently being published throughout the world. The distinction between the present study and such publications as the *List* and the 1956-57 Unesco study, *Statistics of Newspapers and Other Periodicals*, is that the present study will serve as a source both for information concerning the most recently published bibliographies of scientific serials and for a verifiable statistical count based on these sources.

This 1-year study will be under the direction of Charles M. Gottschalk, Head of the Reference Section in the Science and Technology Division. Preliminary results are expected to be published in 6 months.

(Reproduced from: *Library of Congress Information Bulletin*, Washington, D.C.).

## LETTERS TO THE EDITOR

31 August 1961

Dear Sir:

The great number of different formats and sizes in which scientific periodicals are published, are a source of much unnecessary bother to the librarian, the reading public, and, probably, even to the printers. Would it not be possible to reduce the number of formats - at least in the instance of scientific periodicals - to a certain minimum, say three or four? The advantages of such a procedure are quite clear and the difficulties - if they exist at all - are not unsurmountable.

Care should also be taken to abolish the 'folio' (also called 'legal') size for scientific periodicals. Material exceeding a height of 30 cm usually calls for an adjustment of the number of shelves within the rack. As space and shelving are a real problem in most libraries, the measure indicated would help to alleviate the problem at no trouble or expense.

Care should also be taken to have vital (for the librarian, at least) data clearly indicated on the cover-page of every scientific periodicals. These data include date (or at least year) of issue, Nr. of Volume and Number of issue; it seems also desirable to have the annual subscription price and the name of the publisher shown in a prominent position on the cover page.

The present practice to print these data in accordance with the whims and ideas of the publishers has not much to commend itself; sometimes the librarian has to turn detective in order to ferret out this information which - probably - was not meant to be classified. The introduction of certain generally accepted standards into this practice would be very welcome - in fact it is long overdue.

Yours sincerely:

Perez Tura,

National and University Institute  
of Agriculture Library,

POB 12

Rehovot, Israel.

2. *World agricultural economics & rural sociology abstracts* (issued in co-operation with the International Conference of Agricultural Economists). Quarterly. Amsterdam. North-Holland Publishing Co. Price \$ 8.50 or 32 guilders per annum; discount 20% to members.

3. *World directory of agricultural libraries and documentation centres*, edited by D. H. Boalch; 1960. Pp. 280. Obtainable from: T. P. Loosjes, Agricultural University Library, Wageningen, Netherlands. Price: £ 1.15.0 or \$ 5.00. Discount of 20% to the book trade and to individual members; gratis to institutional members.

4. (In preparation; to be published in 1964). *World list of current agricultural serials*.

5. (In preparation; to be published in 1961). *Primer of agricultural librarianship*.

#### *Membership*

The annual subscription for libraries, institutions and associations is \$ 12.50 or £ 4.2.6. per annum; for individuals: \$ 4.00 or £ 1.9.0. All members receive the *Quarterly bulletin* gratis and are granted a 20% discount on *World agricultural economics and rural sociology abstracts*. Other publications are issued gratis to institutional members and with a 20% discount to individual members.

Subscription and applications for membership should be sent to: T. P. Loosjes (Treasurer), Agricultural University Library, Wageningen, Netherlands; (Bank: Twentsche Bank, Wageningen).

*Note.* Some institutions find it convenient to subscribe through a bookseller. Will they kindly notify the Treasurer of this fact, so that they may be recorded in the membership list and qualify for the rights of members.

#### *A Note on the Quarterly Bulletin*

The editorial office is at the Library, Rothamsted Experimental Station, Harpenden, Herts., England. Communications regarding it should be sent to Mr. D. H. Boalch at that address.

News in the field of the bibliography and documentation of agriculture and allied subjects is welcomed. Short articles (about 1500 words) and letters to the Editor will be published in the *Quarterly Bulletin* from time to time; these should be in English, French, German, or Spanish. Articles, in whatever language they are written, should have an English summary.

## INTERNATIONAL ASSOCIATION OF AGRICULTURAL LIBRARIANS & DOCUMENTALISTS (I.A.A.L.D.)

### *Aims*

The Association was founded in 1955 to promote, internationally and nationally, agricultural library science and documentation, as well as the professional interests of agricultural librarians and documentalists, the term 'agriculture' being interpreted in its widest sense, so as to include forestry, agricultural engineering, veterinary sciences, fisheries, food and nutrition, and agricultural and food industries. Its membership is over 400, drawn from 60 countries, and its activities include holding a General Assembly (at least once in 5 years), annual meetings of the Executive Committee and meetings of the five Working Committees as occasion demands, and the issuing of publications in the field of agricultural bibliography, documentation and librarianship.

### *Officers*

The Executive Committee consists of: *President*: F. E. Mohrhardt (U.S. Department of Agriculture Library, Washington, D.C.); *1st Vice-President*: S. v. Frauendorfer (Hochschule für Bodenkultur, Vienna); *2nd Vice-President*: D. Kervégant (Service de Documentation, Centre National de Recherches Agronomiques, Versailles); *Secretary*: H. D. Griesau (Forschungsrat für Ernährung, Landwirtschaft und Forsten, Bad Godesberg); *Treasurer*: T. P. Loosjes (Agricultural University Library, Wageningen); *Editor of the Bulletin*: D. H. Boalch (Rothamsted Experimental Station Library, Harpenden, Herts., England); *Members*: Mrs. G. Björkman (Royal Swedish Academy of Agriculture & Forestry Library, Stockholm); Mrs. L. Willam-Engels (Bibliothèque de l'Institut Agronomique de l'Etat, Gembloux, Belgium); Miss M. T. Ronchi (FAO Library, Rome); H. G. Gravenhorst (Bibliotheca, Facultad de Agronomía y Veterinaria, Universidad de Buenos Aires); E. M. Zink (Biblioteca, Instituto Agronômico do Estado de São Paulo, Campinas, Brazil).

### *Publications*

1. *Quarterly bulletin of IAAALD*. Harpenden, Rothamsted Experimental Station Library. Retail price £ 4.2.6 or \$ 12.50 per annum; trade discount 20%. Issued gratis to members.
